

## **National Chrysanthemum Society - web publication policy**

Dear Members,

At the Executive meeting of 24<sup>th</sup> November 2009 the Executive Committee voted in favour of the following approach to publishing information on the Society website.

Given that not all our members have access to the internet we have decided that publication of information in our paper publications will take priority; this means articles, show reports and photographs etc. will be seen by all our members before they are made more generally available via the Society website.

While adopting the above policy we also recognise that there may be some instances when we are in between major publication dates and the only means of broadcasting important information will be via the Society website.

This policy will be reviewed periodically to ensure its ongoing relevance.

Approved for publication 12th February 2010
